Notice of Maladministration.
Notice of Change in Contract Terms
(Every member, individually, and
all members collectively)
Notice of Right to Arbitration

Notice to Leon County School Board, Officials and Businesses

Effective Cross-contamination Mitigation Efforts.

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

I, _____, one of the People (as seen in Article 1Section 1 of the Florida Constitution), Sui Juris, am serving you with due notice, thatyou may provide due care;

Please take notice that there has been a misunderstanding about powers, duties and privileges afforded to you by the People when you were hired as a servant, to do the business of the People, whom you server at their will only.

Florida Constitution Preamble:

We, the people of the State of Florida, being grateful to Almighty God for our constitutional liberty, in order to secure its benefits, perfect our government, insure domestic tranquility, maintain public order, and guarantee equal civil and political rights to all, do ordain and establish this constitution, we declare:

Florida Constitution Article 1 Section 1: Vestment of Political Power

All political power is inherent in the people. The enunciation herein of certain rights shall not be construed to deny or impair others retained by the people.

Florida Constitution Article 1 Section 5: Right to assemble:

The people shall have the right peaceably to assemble, **to instruct their representatives**, and to petition for redress of grievances.” (emphasis added)

Please take notice that our rights are to be asserted, which is a duty of the people and to give the government instruction of how to not infringe on these rights and how best to handle the People’s business.

The outbreak of the SARS-CoV2 virus has caused a vast amount of uncertainty and changes. With the often rapidly changing situation even many of the persons we listen to as experts, like the CDC and the WHO, have often contradicted earlier recommendations. We ask our school board, superintendent, faculty and staff to be experts in educating and keeping our children safe. It is too much for us to ask them to also be experts in mitigating epidemical risks, especially when the CDC and NIH can't seem to give clear protocols that are effective either.

There is an easy and affordable solution. The job field known as Industrial Hygienists exists to study and mitigate these exact risks. From the efficacy of mask to HVAC system to water and air quality, all aspects of hygiene are handled within this field. They are the only board certified and court of record experts on these subjects.

Therefore it is the will of the People whom you serve, that the school board hire a Senior Industrial Hygienists who is board certified and court recognized to study, report on and recommend improvements to all aspects of hygiene involving LCSB, it buildings, staff, students and other physical assets. The report should contain information on, but not limited to, the efficacy of masks, social distancing, and ventilation solutions. Being that this is a specialized field you will find a list of acceptable candidates attached to this notice.

Florida Constitution Article 1 Section 24. Access to public records and meetings.—

(a) Every person has the right to inspect or copy any public record made or received in connection with the official business of any public body, officer, or employee of the state, or persons acting on their behalf, except with respect to records exempted pursuant to this section or specifically made confidential by this Constitution. This section specifically includes the legislative, executive, and judicial branches of government and each agency or department created there under; counties, municipalities, and districts; and each constitutional officer, board, and commission, or entity created pursuant to law or this Constitution.

Please take further notice that the People wish for this to be a transparent process. The vetting process will start within 10 and public reports will be posted weekly until this entire process, including implementation of any recommended procedures, is fully completed. A final decision on hiring must be made within 30 days of the start of the vetting process and all documentation and correspondence involved in the hiring process is to be released to the public. The school board is to make every reasonable attempt to complete the entire process as quickly as possible and to implement any and all recommendations within the 21/22 school year. Any and all reports are to be made public within 7 days of reception by the board and or supervisor.
