From: _____

**Notice by Demand in Support of Affidavit for Georgia Legislature and Governor
Removal of Emergency Powers
Case Number: GA-EO-31420.32921.33021
Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent**

I, _____, one of the people (as seen in Article 1 Section 1 of the Georgia Constitution) Sui Juris, in this Court of Record, am presenting you this notice that you and your agents may provide due care;

Please take notice that the attached Affidavit presents issues of law that I wish to have answered immediately as one of the People.

Please take notice that elected Government officials are servants of the People and are to follow the Georgia State Constitution. Ignorance of the law is no excuse.

Governor Kemp is attempting to legislate through executive order. Governor Kemp is attempting to allocate funds for use by government agencies. Governor Kemp is using the guise of an emergency to usurp powers specifically granted by the People to the state legislature, in violation of constitutionally limited separation of powers.

Emergency is defined as “**An immediate and unforeseen incident** that occurs which requires action to combat a threat to life or property”. The current economic situation in Georgia, related to recovery from COVID 19 is neither sudden nor unforeseen. It has resulted from a continuous set of circumstances for more than a year. While these circumstances may warrant legislative consideration, the situation as a whole does not constitute use of emergency executive powers cited in executive orders 06.29.21.01, 06.30.21.01 and 06.30.21.02.

It is therefore the wish, demand, and order of I, one of the People, that this issue be investigated immediately, that the legislature present where they were granted constitutional authority by the People to authorize use of legislative powers by executive officials to control the people and allocate use of the People’s funds.
