**Notice to commercial entity Dominion Voting Systems, the PRIVATE Bar Associations
and PUBLIC STATE LEGISLATURES**

I, _____, one of the People as seen in Florida State
Constitution, Sui Juris, am providing you notice that you may provide due care;

Please take notice that the Dominion Voting System is a commercial entity, and not contracted
with nor does it serve to enhance the will of the American People, but stands as outside of those
granted with government authority;

Please also take notice that the Bar is a Private Membership Association, and not contracted
with nor does it serve to enhance the will of the American People, but stands as outside of those
granted with government authority;

Please take further notice that Dominion Voting Systems has used the Bar to attack and to
circumvent the will of the People through frivolous lawsuits. Dominion Voting Systems has
directly violated the law by refusing to hand over passwords, software source code and
contracts;

Please also take notice that the Bar, as private associations may be pierced for nefarious acts,
or inherent evil (please see Dennis v United States 341 U.S. 494 (1951), also Brandenburg v
Ohio, 395 U.S. 444 (1969) and I as one of the people, am under the belief that attacking those
who serve the will of the People and making baseless claims of them being involved in lies,
attempting to steal an election by pursuing the People's Audit puts the lives of the People's
servant and their Attorneys in serious danger as seen by the powder substance sent to Senator
Karen Fann of Arizona, who is working by direct order of the People. Making attacks against
any Bar attorneys who are following the will of the People or assisting the People by contract is
a direct interference with the will and the Rights of the People;

Please take notice that as one of the people, it is realized that the Bar has been used to harass
the people of America with administrative cases that are held outside of the rights and
constitutions guaranteed in the states by Public Officers by Oath. Running adversarial trial-like
procedures against the People who are to be protected by Constitutions/Trust Indenture of the
States, is causing the government Trustees to directly war with the Constitution and People
which give them the power to sit in the seats they sit in;

Please take further notice that they People demanded audits across the nation by Right, yet it
seems that there is an attack on the following Attorneys that are standing for the rights of the
people;

1. Sidney Powell
2. Lin Wood
3. Rudy Guillian
4. Matt Deperno
5. Mark Brnovich

Please take further notice that as one of the People, I realize the following people have been
attacked by attorneys with frivolous suits and/or arrest in what seems to be political issues;

1. President Trump
2. General Flynn
3. George Papadopoulos

Please take further notice that as a private association, the People have not authorized your
private foreign entities to use our courts to attack those who stand in their position for the
People's Protection. If you believe that you were given Constitutional Authority to control the
People's Audits and business, please show the name of your Bar Association in the State

Constitution and where we gave you power to interfere with the will of the People within 5 days, sworn under the penalty of perjury, or you agree that you interfering with the rights of the People with full knowledge and malice should any more actions be taken by your private entities.

Please take further notice that the People have not authorized a commercial entity to use our courts to attack those who stand in their position for the People's Protection. If you believe that Dominion Voting Systems was given Constitutional Authority to control the People's Audits and business, please show the name of the commercial entity in the State Constitution and where we gave you power to interfere with the will of the People within 5 days, sworn under the penalty of perjury, or you agree that you interfering with the rights of the People with full knowledge and malice should any more actions be taken by your private entities.

Florida State Legislature, please take notice that no private entity or commercial entity has the authority to challenge the rights of the People who you swore to serve as Trustees and Servants Please see (Florida constitution Bill of Rights, ...public officers are the Trustees and Servants of the People). Please take further notice that it is my wish, order, and demand that you remove these private actors and commercial entities from the People's business. Furthermore, it is the wish of I that you excuse the Bar Associations from the decisions dealing with the People's rights, that the purposes of the people creating courts are upheld, and not to serve as the playground for Attorneys who wish to settle their political issues by use of the People's servants or Courts. Furthermore, it is the wish of I that you cancel all contracts with Dominion Voting Systems and ANY commercial company or voting system software or hardware, that uses ANY code, module, hardware or software that is used in any way by Dominion Voting Systems. If the Legislature shall wish to ignore this notice, please send Constitutional Authority, given by the People where you are allowed to give an Agent or A Private Association the ability to act as Adversaries to the People within 5 days, sworn under penalty of perjury. If you cannot show these authorities it is my wish that you excuse the Bar from the People's Business immediately and force all cases where government officials attempt to prevent the People's right to audit, be paid for out of the private entity or government officials' personal funds.
