**Notice of Intent to Arizona Legislature and Government Workers**

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

---

I, \_\_\_\_\_, one of the People of Arizona (Article 2 Section 2 of Arizona Constitution), having all rights and one exersing my right to teach fundamental principals to those in government (Article 2 Section 1) do bring this notice in order to receive due care;

As one of the people of Arizona, I have noticed that there has been many encroachments on the rights of the people. To name a few, overreaching mandates on those outside of your jurisdiction of the government personnel (Article 2 Section 3B of Arizona Constitution), telling businesses to force mandates on the people, failing to deal with issues with the Board of Supervisors in a timely manner and affording them with special privileges to ignore law.

In order to protect the rights of the People, it is my desire to give you notice of the intent to add the following Iniatives to Arizona Constitution as it is becoming obvious that the group that is last to be taken care of may be very well, the People, who you have been elected and paid to serve. Please see the Initiatives the People intend to add to the Constitution of Arizona below:

1. The People reserve the power to hold grand jury's independent of any governmental authority.
2. The People shall have the power to hold trials by Jury to deal with any harm from any administrative agency, tribunal, or program.
3. The People reserve the power to prosecute any government official for maladministration outside of the control of any government officer.
4. The Legislature must provide at the end of every statute evidence of who a specific bill applies to and must notice all police and agency officer statewide immediately.
5. All state workers and agencies must hold bonds that must be immediately surrendered to the people for any case or matter affecting the rights of one of the People.
6. The People shall forever control the power of Recalls and the Legislature shall not have the power to write Legislation to change the will and procedure of the People.
7. The Legislature must publicly read the State Constitution of Arizona 2 times per session.
8. The Legislature shall have no Officers of the Court or Attorneys blocking the will of the people for legislation, therefore it is forbidden for any Legislative Counsel to work in this State unless that person is learned in the law of the State, the

Arizona Constitution. Any attempt to block the People from instructing their representatives shall be considered unlawful and can be prosecuted outside of the government authority.

9. The People shall have the right to demand all communications, phone records, emails, relating to any election of the People.
10. No Public official of this State or any political subdivision shall use any court or tribunal , not of Record, or not moving under the rules of common law (not statutes or codes) to take rights, property, or the life of one of the People.
11. Any statute that may vaguely give the impression that one is guilty of some offense without giving the jurisdiction the agency is using, or the contract, will be considered unlawful.
12. All Mothers and Fathers who have had children removed without warrant from a Court of Record, using the common law, shall have the power to bring actions against all parties involved with their matters, if children are not immediately returned, and the State shall compensate all parties upon demand. Any government worker normally working as an officer in a Court of Record shall not be considered working in a Court of Record under any Title 42 program or any similar program. Furthermore, the courts of this State shall not be able to use the Peoples Courts to prosecute any Mother or Father who dealt with the Agency, DCS or any other child welfare program.
13. The Legislature shall account for every missing child that has been taken by the Department of Child Safety and it shall be unlawful to ignore this duty and a direct trespass against the People.

As one of the people, I can understand that you may have not been trained in the Constitution of Arizona, as I was not taught the jewel that we were left by our wonderful forefathers. Please take this document as notice that as one of the People, I require the immediate correction of the wrongs against the People, and as a servant of the People, it is incomprehensible that the People should suffer any longer through these atrocities to mankind. It is my will that we can resolve these issues in love and peace and that the People of Arizona return to the great power they once held as the power over their servants, I believe, trust and pray that you hold that same will, as you signed and swore an oath to do just that. I thank you for immediate action that you will take to establish order and bring confidence back to the people in all of these areas, but please understand, the People have all political power and will set things in order. Please be blessed and prosper in the Name of Jesus Christ, Amen.
