New Remedy for America Webinar 6.07.2021

Status - What you are or who you are as a Person. You do not want to not have a founding to stand. Goal Highest Standing.

Standing - Your Right or Cause Goal Highest Standing

Juris – Is right law. Law or Right.

Diction - Deals with words. (Jurisdiction – Law Words) Who is dealing with what, how they are dealing with it.

Who has the original authority? We the People. When you grant someone authority, and they want to use that authority, they tell you that you no longer have that authority. (We demand forensic audits because it is our Constitutional Right. When these lawyers are taking us out of Jurisdiction, we lose Statue.

Public – Workers within the government, commerce.

Private – Affecting or belonging to private individuals as distinct from the public generally. Not official not clothed with office. None of us guys are clothed with office. Are they supposed to be interfering with the private affairs of the People? Where do you get that authority?

Blacks law 5: Right of Privacy – They want to call you a person (gov. office) the right to be left alone and the right of a person to be free from publicity, term right of privacy. Such rights prevent gov. interference. In intimate personal activities, his family and his relationship with others. A school ran by a person cannot hold power over the people. The government has no right to interfere. Those are private rights that no one can interfere with. It goes against your religious duties to God, to conscience. “The right to be let alone, the right of a person to be free from unwarranted publicity. “Term” right of privacy” is generic term encompassing various rights recognized to be inherent in concept of ordered liberty, and such right **prevents** governmental interference in intimate personal relationships or activities, freedoms of individual to make fundamental choices involving himself, his family, and his relationship with others. The right of an individual (or corporation) to withhold himself and his property from public scrutiny, if he so chooses. **It is said to exist only so far as its assertion is consistent with law or public policy, and in a proper case equity will interfere, if there is no remedy at law to prevent an injury threatened by the invasion of, or infringement upon, this right from motives of curiosity, gain or malice.** An individual’s right regarding the collection, processing, storage, dissemination, and use of data about his or her personal attributes and activities”.

Sovereign immunity – Doctrine precludes litigant from asserting an otherwise meritorious case of action against a sovereign (Who is the Sovereign, People or the government?) or a party with sovereign attributes unless sovereign consents to suit. Historically, the federal and state governments, and derivatively cities and towns were immune from tort liability arising from activities which were **governmental in nature**. Most jurisdictions, however, have abandoned this doctrine in favor of permitting tort actions with certain limitations and restrictions. (See Federal Tort Claims Act; Governmental immunity; Tort Claims Acts.

Question – Where do the government authorities get the powers that are granted to them? If they have sovereign immunity, so do we because we created the government. You cannot grant something you do not already have.

Are the people ever able to be in a situation to be free from government intrusion?

Organic Legislation – <https://www.merriam-webster.com/legal/organic%20law>

Legal Definition of *organic law*

: the body of laws (as in a constitution or charter) that form the original foundation of a government also : one of the laws that make up such a body

Private and Business are two terms that conflict. Private is something that is not open to the public in dealing with commerce, business is saying you are open to the public for commerce.

We like this Remedy stuff!

Prove the law.

Public Law 89-564 Sept.9, 1966

*To provide for a coordinated national highway safety **program through financial assistance to the States** to accelerate highway traffic safety **programs** and for other purposes.*

Highway Safety. Authority of the Secretary. Directed to assist and cooperate with other federal departments and agencies, state and local governments, private industry and other interested parties, to increase highway safety .(Highway Safety Programs)

Conflict of interest?

Look at section C. 40% of funds.

Driver –

The people are in the private.

The Secretary shall carry out the provisions of the High-way Safety Act of 1966 (including Chapter 4 of title 23 of the US Code) through a National Highway Safety Agency (herein-after referred to as the “Agency”) which he shall establish in the **Department of Commerce**. (Why are they putting Driver programs under the Department of Commerce, they try to attack our business through being in public commerce.) The Agency shall be headed by an administrator who shall be appointed by the President, by and with the advice and consent of the Senate, who shall be compensated at the rate prescribed for Level V of the Federal Executive Salary Schedule established by the Federal Executive Salary Act of 1963. The Administrator shall be a citizen of the United States, and shall be appointed with due regard for his fitness to discharge efficiently the powers and the duties delegated to him.

Blacks Law 5: Commerce -The exchange of goods, products, or property of any kind. (When you are driving with family, are you engaged in commerce? Is family an association in the private?) The buying, selling and exchanging of articles. (When you are going to get food for your family to live, is that in the Public or Private?) The transportation of **persons (not private)** and property by land, water and air. *Intercourse by way of trade and traffic between different peoples* or states and the citizens or inhabitants thereof, including not only the purchase, sale, and exchange of commodities, but also the *instrumentalities* (*US is a corporation and says it has instrumentalities, We are not persons we are People*) and agencies by which it is promoted and the means and appliances by which it is carried on, and transportation of persons as well as of goods, both by land and sea. Also, interchange of ideas, sentiments, etc., as between a man and man. (Put the highway safety power inside of the Department of Commerce and did not tell you what was meant by “Commerce” and then made a private DMV.) See also affecting commerce; Interstate and foreign commerce; interstate commerce; interstate commerce Act; Interstate Commerce Commission; Intra-state commerce.

Department of commerce falls outside jurisdiction of the private.

Authenticated U.S Government Information (GPO) (Website for info) govinfo.gov

Gain – (Social security Act “Gains”)

Malice -

Law that is not passed is not law

Provisions that are not law are not law

Programs are not law

Public policy is in the public and cannot interfere with the private. You as the government to get a shot or where a mask, and you cannot tell a store or a school either.

Persons – Term sometimes used to refer to persons other than those holding public office or in military service. Means an individual, a trust or estate, a partnership, or a corporation.

People -

Josh Barnett – Wisconsin had been hammered with affidavits. Branchin (Sen.) requests forensic audit.

Roberts Rules – Georgia

Penn and Wis. Masons manual.

Juris (Law words or Rights Words If they use words that do not have power, they have no standing)

Definitions:

When Dominion said that the legislation was going against them they defined them

Black's Law – It is the authority that cites cases, where judges use the legal right to exercise authority. It exists when court has powers of cases.

Actions traditional or administrative?

If these people are doing things that are not judicial, do we have a big problem? How are they doing it without constitutional authority?

Social Security act of 1935 – The people tell us that laws are created, and people are bound by it. Is it a law?

Preamble – The social act, HR7260, An act to provide for the general welfare (We the people establish and create things, if not created in the Constitution it came from the legislature, which they say binds us within their authority) by establishing a system of federal old aged benefit by enabling the several states to make more adequate provision for aged persons, blind persons, dependents, public health and the administration of their employment compensation laws to establish a social security board. (can the board be higher than the people? the legislature created the board not the people) **to raise revenue and other** purposes (money making scheme). Because they are making money off of the program, they are hurting the people through fees and fines. If they are shutting down your business, but they are getting paid from SS, where do they get the authority to do so?

General provision – (created CPS)

Kelly Townsend said that she is getting her 452mill if they lockdown.

Revenue Generation –

We win because of learning of old information some knew, and soon all will know.

(They are using provisions, not laws)

Is administration the same thing as judicial determination?

They have been able to do these contracts, because no one knows.

Notices first to get the Grand Juries back.

Corporations are formed by the legislature to do commerce in states.

Look at how Dave put together his classes. Private membership. Private association.

They are opening up a private organization for \$1 per person. A private member association. Anyone who has a profession is protected.

We have the Law and the Truth. They have been hiding it from us. They do not have the power over Us.

We are in the Private. How much power do we have here?

The CDC is making recommendations. Where do you find the CDC in the Constitution? Nowhere. "A core duty and primary function of any government is protection of the **public's health and safety**. Field epidemiology—including investigation of disease outbreaks and clusters—is a critical, basic government function conducted by public health agencies at the state and federal levels. The federal government's authority to protect public health and safety is found in the US Constitution. And while states address the protection of public health and safety in their individual constitutions, each state is also vested with "police powers," that is, inherent authority to impose restrictions on private rights for the sake of public welfare, order, and security. Both federal and state authorities are subject to the limitations and restraints of the US Constitution. These legal authorities enable public health officials to take certain actions during epidemiologic investigations, such as obtaining clinical specimens and data from persons affected by an outbreak; obtaining data from healthcare facilities; collecting environmental samples; protecting the privacy of personal information; and implementing and enforcing control measures, such as vaccination, chemoprophylaxis, quarantine, or even seizure or destruction of private property.^[a]"

These people have been tricking us to register stuff with them while withholding important information.

CDC.gov

<https://www.cdc.gov/eis/field-epi-manual/chapters/Legal.html>

Article 1 Section 8

Where does it say "Rule over the People". Nowhere. We have to realize that we are being deceived. They are making money off of these programs.

https://ocw.mit.edu/courses/sloan-school-of-management/15-628j-patents-copyrights-and-the-law-of-intellectual-property-spring-2013/readings/MIT15_628JS13_read02.pdf

NAACP v. Alabama 1958

What happened when a group of people of color went to court against a board of Caucasians?

"Alabama sought to prevent the National Association for the Advancement of Colored People (NAACP) from conducting further business in the state. After the circuit court issued a restraining order, the state issued a subpoena for various records, including the NAACP's membership lists. "

"Did Alabama's requirement violate the Due Process Clause of the Fourteenth Amendment?"

"In an opinion authored by Justice John M. Harlan II, a unanimous Court decided in favor of the petitioners, holding that **"Immunity from state scrutiny of petitioner's membership lists is here so related to the right of petitioner's members to pursue their lawful private interests privately and to associate freely with others in doing so as to come within the protection of the Fourteenth Amendment."** Further, the Court held that freedom to associate with organizations

dedicated to the "advancement of beliefs and ideas" is an inseparable part of the Due Process Clause of the Fourteenth Amendment. Justice Harlan concluded that the state's obtaining the names of the Association's membership would likely interfere with the free association of its members, **so the state's interest in obtaining the records was superseded by the constitutional rights of the petitioners.**

The People are the Bosses of our government and any entity that they create. If you are not selling items or acting in commerce, we are in private.

Freedom of Association –

Bryce question:

There's no such thing as a private citizen. Private and citizen are separate words. Citizen is your relationship to a group of people you have binded with or associate with. Your citizenship deals wits civis, a corporate family of people who have come together to create a state or local.

The People are in the Private at all times.

<https://www.merriam-webster.com/dictionary/status>

Definition of *status*

1a : position or rank in relation to others the status of a father

b : relative rank in a hierarchy of prestige especially : high prestige

2 : the condition of a **person or thing in the eyes of the law**

3 : [state](#) or condition with respect to circumstances the status of the negotiations

Who has the highest Standing? Your standing is what allows you to win when it comes to court. When it comes to doing the affidavit as one of the People, you have to have the highest standing. You do not want to leave jurisdiction open.

When they give you tickets in keeping your business open, it says "Administrative citation". We show them that the People are operating in the private and is not Public.

Mandatory Vaccinations, where is this allowed in our Constitutions?

https://ballotpedia.org/Article_2,_Arizona_Constitution

"All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights"

"Supreme Law of the Land

Supreme law of the land; authority to exercise sovereign authority against federal action; use of government personnel and financial resources.

A. The Constitution of the United States is the supreme law of the land to which all government, state and federal, is subject.

B. To protect the people's freedom and to preserve the checks and balances of the United States Constitution, this state may exercise its sovereign authority to restrict the actions of its personnel and the use of its financial resources to purposes that are consistent with the constitution by doing any of the following:

1. Passing an initiative or referendum pursuant to Article IV, Part 1, Section 1.
2. Passing a bil pursuant to Article IV, Part 2 and Article V, Section 7.
3. Pursuing any other available legal remedy.

C. If the people or their representatives exercise their authority pursuant to this section, this state and all political subdivisions of this state are PROHIBITED from using any personnel or financial resources to enforce, administer or cooperate with the designated federal action or program”

“No person shall be deprived of life, liberty, or property without due process of law.”

“The right of petition, and of the people peaceably to assemble for the common good, shall never be abridged”

“No person shall be disturbed in his private affairs, or his home invaded, without authority of law”

“No bill of attainder, ex-post-facto law (Law made after the fact), or law impairing the obligation of a contract, shall ever be enacted”(sic)

If you are doing commerce, that is the opposite of Private. This is our Power as the People.

In the States the Republics we have bills and declaration of rights that tell the government that they cannot touch what we do.

Would it not be good to remove the monies from the Deep State? Do we have the Power to do so?

<https://www.oyez.org/cases/1957/91>

Affidavits next, will include within a separate document.

Its important to access the written information regarding acts, statutes, programs, articles and show them within the affidavit.

1925 Arbitration Act.

Verification (swearing your testimony is true to your beliefs)

Jurat - Notary recognition and signing

Final Notes-

Do we use links to HSS or CDC links?

We only want to use short links that prove what we say. If you stick to the constitution that is the Highest Standing.

PMA is available.
