From: _____

GEORGIA STATE LEGISLATURE
NOTICE OF DEMAND BY WE THE PEOPLE FOR LEGISLATIVE COMMITTEE TO
TAKE ACTION
Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

I _____, one of the People (as seen in Georgia Constitution, Article 1, Section 2, Paragraph I), Sui Juris, in this court of record, bring the following claims and facts, that you and your agents may provide due care. It is my will to give notice of the true law set forth by the People;

Please take notice that Georgia government was created by the People in the Georgia State Constitution. The People elected you trustees to this trust indenture which you already swore an oath to defend and protect. Therefore, the People are not limited by your statutory limits. Government was founded by the People and is based on the People’s will; it was never intended to be based on the desires or will of the trustees. (See Georgia Constitutional provision below):

Article 1, Section 2, Paragraph I-
All government, of right, originated with the people, is founded upon their will only and is instituted solely for the good of the whole. Public officers are the trustees and servants of the people and **are at all times amenable to them.** (Emphasis added)

Take further notice that the People’s right to petition and remonstrate exists because it is the People’s inherent right and responsibility to regulate government. Government was created to carry out the will of the People. When government is functioning in ways which go against the People’s will and authority, the People are to correct them and lead them in ways which are consistent with the Constitution and which redress grievances. The Georgia State Constitution clearly guarantees the Peoples indefeasible right to reform, alter, or abolish government whenever the People may decide that the public good requires it. (See Georgia Constitutional provision below):

Article 1, Section 1, Paragraph IX:
The people have the right to assemble peaceably for their common good and **to apply by petition or remonstrance to those vested with the powers of government for redress of grievances.** (Emphasis Added)

Article 1, Section 2, Paragraph II:
The people of this state have the inherent right of regulating their internal government. Government is instituted for the protection, security, and benefit of the people; and **at all times, they have the right to alter or reform the same whenever the public good may require it.** (Emphasis Added)

Please take notice that the full legislature does not have to be in session to initiate an investigation, or to issue subpoenas for witnesses and evidence. This can legally be done by a committee of either or both houses, working together or independently.

As Trustees, you were granted authority by the People, in the trust indenture to handle the People's business. It is your duty to carry out the will of the People. Therefore, I have presented fundamental law and am providing instructions, that you may carry out the will of the People.

We the People demand a statewide, full forensic audit of the November 2020 elections, as already agreed upon by the Senate Judiciary committee. This investigation can be legally undertaken by the committee without calling the full legislature into a special session. This audit is an absolute necessity to determine the existence of and the exact nature of any possible defects in Georgia election systems and laws, thus providing all information necessary for the thorough and timely correction of said defects should any be found.

As one of the People, I am instructing you to exercise the powers granted to you by the People to initiate an investigation, issue subpoenas for witnesses and evidence to be presented, and to issue warrants for any who fail to comply with the subpoenas.

The People's Audit must include:

- All paper ballots (from the 2020 General Election and the pre-election system test ballots):
- All possible ballots
- How many versions of ballots were there?
- How many of each version could be counted?
- How many of each version were counted?
- How did the digital images of each effect the operation of the election equipment?
 - Was there any forensic variation within each ballot version?
 - Did the handling of ballots alter the effect of the ballot's interaction with any election equipment?
- Kinematic forensic analysis (utilizing high speed, high definition, digital forensic police cameras, and optical character recognition) of paper ballots
- Digital forensic analysis of ballot images both computer and human created, as well as all image codes
- Forensic analysis of the paper and the print system utilized
- All tabulator tapes
 - Kinematic forensic analysis of the tabulator tapes
 - A forensic analysis of their correlation to the equipment used, software and paper ballots
- The election machines including all equipment and software utilized before, during and after the 2020 General Election
- IACIS CFCE certified computer forensic analysts to find, extract, analyze and document all electronically stored information found on the counting/tabulator machines, pollbook machines, disability abled machines, routers, thumb drives, county and Secretary of State (SOS) laptops, and any other equipment not listed
- Forensic and kinematic analysis of all equipment used
- The networks
 - Full forensic network and packet analysis of all connectivity

Credible, verifiable, true elections are the democratic Republic's indispensable political foundation woven throughout our constitution. If the People of the state of Georgia cannot question the authenticity and process and outcomes of elections, we cannot trust in the government to provide honest answers and the constitutional ideology of we the people is defunct. We have the inalienable right to question and seek a redress of grievances. To ignore our rights is to censor the honest, concerned voice of the People which you have sworn an oath to protect.

Please take note, a successful Georgia Election Audit must seek to provide:

- Verification that every ballot is legal and authentic,
- Verification that there are no illegal or inauthentic ballots,
- Verification that every legal, authentic ballot was correctly counted,
- Verification that the machines have had no changes that would decertify them,
- Verification that SOS claims regarding machines are true,

- Verification that machines have not communicated with any entity other than SOS employees, voters, and SOS thumb drives,
- Verification that the election equipment is not hackable, in any manner either currently or in the future.

If any point is not verified, this fact and the exact reasons for it must be included in the full and complete public release of audit results.

The forensic audit shall make provision for Democrat, Republican, Independent and any other party’s ability to witness said audit. Furthermore, we the People demand that the legislature works with the People securing a well-balanced forensic audit. Results of the forensic audit shall be made available to the public with full transparency.

If you, as a government official, believe that these claims are untrue, please respond within 5 days with Constitutional Provisions, sworn under the penalty of perjury via affidavit, point by point, showing where you have Constitutional Authority to ignore these rights of the People. If you do not respond within 5 days, and/or if you cannot prove that you are acting under constitutional authority then you agree, by acquiescence, that you are knowingly interfering with the rights of the People you swore to protect, and that this Notice shall stand as evidence that you are acting in Maladministration and that no court shall have the power to again adjudicate these matters and that all Courts of Record shall accept this Notice as truth and law.
