

Notice to Florida Legislature, Officials and Businesses

Unlawful Mask Mandates and Infringements on Individual Rights/Liberties

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

I, _____, one of the People (as seen in Article 1 Section 1 of the Florida Constitution), Sui Juris, am serving you with due notice, that you may provide due care;

Please take notice that there has been an error in understanding and that the People of Florida, actually created the State of Florida, and created the frame of government and it's seats, and that the government does not give rights to the People, nor can the government write Legislation that would remove or abrogate the rights of the People (please see the preamble to see the original intent of the People below):

Florida Constitution Preamble:

We, the people of the State of Florida, being grateful to Almighty God for our constitutional liberty, in order to secure its benefits, perfect our government, insure domestic tranquility, maintain public order, and guarantee equal civil and political rights to all, do ordain and establish this constitution, we declare:

Please take notice that our rights are to be asserted, which is a duty of the people and to give the government an outline of how to not infringe on these God given rights. In the Florida Constitution you have sworn to some things that may have been undisclosed to you by attorneys as there may be a vast amount of liability incurred if you are made aware of these principles. For instance, the People have all Political Power, the government was created based off of our will only and you were only put here to be trustees and servants to benefit the People (Please See the Constitutional Provision Below);

Florida Constitution Section 1: Vestment of Political Power

All political power is inherent in the people. The enunciation herein of certain rights shall not be construed to deny or impair others retained by the people.

Please take further notice that if the government has all its power, that is of right, coming directly from the people, and it's based on the People's will only, that any decisions made must also be based on the will of the People, and not the based on the will and thoughts of their hired servants and trustees. Therefore, it is my wish and will for you as a Public Servant, to show where in the Constitution you were given power to force one of the People to wear a mask, get vaccinations, get associated passports or other types of forced medical procedures in order to live as free?

Please take further notice that the people have inalienable rights which can not be removed by any act of the Legislature that they hire to serve them. At times, it has been seen that bar attorneys may instruct the Legislature to write statutes that give some entity authority to do what the Legislature had no power to do themselves, breaking the most fundamental of laws, therefore, again, we need to look at the Constitution to see what you have sworn to by oath (please see the provided Florida Constitutional provision below):

Florida Constitution Section 2: Inalienable Rights

All natural persons, female and male alike, are equal before the law and have inalienable rights, among which are the right to enjoy and defend life and liberty, to pursue happiness, to be rewarded for industry, and to acquire, possess and protect property. No person shall be deprived of any right because of race, religion, national origin, or physical disability.

Please take further notice that if the People have the right to enjoy their liberty and to obtain happiness, you as the Legislature or any Executive Agency you may wish to instruct are without power to interfere with that liberty and any attempts to do so would mean that you are working outside of your oath, trust indenture, and chief design and purpose. Those given power to work for the people were hired to work as servants and not to dictate to the People what they are allowed to do in exercising dominion that has been given by God as seen in Genesis 1:26KJV. It is my will that you understand that as one of the People, I have rights secured in the Constitution, and as a People, if we see behavior that is threatening to our happiness, our freedom, or our lives and safety, we can, by right, change the Constitution at will (please see Constitutional Provision below):

Florida Constitution Article XI Section 3:

The power to propose the revision or amendment of any portion or portions of this constitution by initiative is reserved to the people

Florida Constitution Article XI Section 4:

The power to call a convention to consider a revision of the entire constitution is reserved to the people.

Please understand that it is our right to be happy, safe, and free from anyone dictating to the People what may be down with their health and liberties. It is therefore, my wish, order, and demand that the Legislature give notice or statements to businesses doing commerce and all government officials that the people are not to be interfered with in their lives and that the businesses holding licenses as corporate entities do so by privilege of the People who included corporations in their Constitution. Furthermore it is the wish of I, as one of the People, that any business infringing on the right of the People to control their health (be it mask mandates, vaccines, or blocking access and enjoyment of individual locations), be investigated and the licensing power be revoked. I, as one of the people, am looking for the Legislature to correct this, and then it is my intent to go to the People and remove all powers and authority which is against the will of the People! Please take notice that the stores are here by the peoples permission and if stores block access to the people who allowed them to function, the people become injured or harmed, this is against the will of the people as seen below in the Constitution you swore to uphold:

I look forward to your speedy attention to these issues and look forward to the immediate corrective Action that follows the powers and duties you were given in your Trust Indenture, the Florida Constitution.
