Notice of Demand to Conduct a Full Forensic Audit of 2020 Election in the Commonwealth of Pennsylvania

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

I, _____, one of the People (see constitutional provision below);

United States Constitution Article IV. SECTION 2, Paragraph One.

The Citizens of each State shall be entitled to all **Privileges and Immunities** of Citizens in the several States. (Emphasis by Highlight Added)

am writing in support of the Pennsylvania State Constitution Bill of Rights Article I Section 2, Sui Juris, in this court of record, to bring the following claims and facts, that you and your agents may provide due care.

Please take notice that the Constitution of the Commonwealth of Pennsylvania, to which you have already sworn an oath, explains that all power is inherent in the people, and all free governments are founded on the authority of the people, and said people maintain the right to manage all of the affairs of their government. (see constitutional provision below);

Pennsylvania Constitution Article I Section 2: Political powers

All power is inherent in the people, and all free governments are founded on **their authority** and instituted for their peace, safety and happiness. For the advancement of these ends they have at all times an inalienable and indefeasible right to alter, reform or abolish their government in such manner as they may think proper. [Emphasis by Highlight Added]

Further it is my will to give you notice to the true relationship between the people and the officers of government. As all power is inherent in the people, officers of government derive power from the people, therefore officers of government are both accountable and answerable to the people (see Pennsylvania Bill of Rights reference below);

Pennsylvania Declaration of Rights Part 2: Bill of Rights

IV - That all power being originally inherent in, and consequently derived from, the people; therefore all officers of government, whether legislative or executive, are their **trustees and servants, and at all time accountable to them**. [Emphasis by Highlight Added]

Further take notice that in the relationship between officers of government and the people, it is a natural right for the people from time to time to associate and discuss matters of importance to the people, and to instruct their representatives on such matters. This relationship is outlined in the Pennsylvania Bill of Rights referenced below;

Pennsylvania Declaration of Rights Part 2: Bill of Rights

XVI. That the people have a right to assemble together, to consult for their common good, to instruct their representatives, and to apply to the legislature for redress of grievances, by address, petition, or remonstrance. [Emphasis by Highlight Added]

Florida Constitution Article 1 Section V Right to Assemble

The people shall have the right to peaceably assemble, to instruct their representatives, and to petition for redress of grievances. [Emphasis by Highlight Added]

Further take notice that the officers of government, in deriving power from the people, and representing the will of the people are to set about the work of the people as servants and trustees. When performing the work of servants and trustees of the people, there may arise the temptation to work or serve entities other than the people, and further temptation to work against the people, which is abhorrent to the people and a violation of the trust relationship between the people and officers of government. To protect against abuses and maladministration the people maintain the power to manage all affairs of government (see Virginia Bill of Rights reference below);

Virginia Declaration of Rights

3. That government is, or ought to be, instituted for the common benefit, protection, and security of the people, nation, or community; of all the various modes and forms of government, that is best, which is capable of producing the greatest degree of happiness and safety, and is most effectually secured against the danger of maladministration; and that whenever any government shall be found inadequate or contrary to these purposes, a majority of the community hath an indubitable, unalienable, and inalienable right, to reform, alter, or abolish it, in such manner as shall be judged most conducive to the public weal. [Emphasis by Highlight Added]

In consideration of these facts, and to secure for the people an orderly accounting of the peoples affairs in the Commonwealth, take notice that I, as a supporter of the people of Pennsylvania join them to insist that as it is declared in Article I Section II of the Pennsylvania State Constitution, to also demand, and to support their expectation of and instructions to you that a true full forensic audit be done statewide of the entire Commonwealth of Pennsylvania November 2020 election. We do not want an "investigation". This full forensic audit of the entire electoral process is necessary to ensure that the will of the people, as expressed in the paragraphs above is met. The people of Pennsylvania require that this full forensic audit includes two parts; (1) a full forensic audit examination of all paper ballots cast to include Physical Kinematic Artifact Detection (PKAD) and also any embedded government encoding of all paper ballots. It is to be conducted either by Jovan Hutton Pulitzer or performed under the consultation of Jovan Hutton Pulitzer, and (2) a full forensic audit examination of all hardware used in ballot tabulation, including electronic hardware with software versions and configurations used, all voter databases relevant at the time of the election, all devices and electronic hardware used in the communication of voting information at the time of the election, and chain of custody documents of all election related materials. To support full transparency Colonel Phil Waldron is to lead and coordinate all phases of this examination done by the Cyber Ninjas team and/or any team they recommend, and the final results are to be released to the people and both Houses of the Pennsylvania Legislature at the same time in order to prevent any manipulation or hiding of the findings. [Emphasis by Highlight Added]

Please take further notice that We the People of Pennsylvania and our supporters across the nation of these 50 United States are demanding a full forensic audit as complete and transparent as the one that took place in the great state of Arizona. You are bound by your constitutional oath to serve and defend the will of the people, as did all of the other state legislators, judicial and legislative branches (see Minnesota Bill of Rights);

Article I. Minnesota Bill of Rights. Section 1 Object of Government

Government is instituted for the security, benefit and protection of the people, in whom all political power is inherent, together with the right to alter, modify or reform government whenever required by the public good. [Emphasis by Highlight Added]

Please take final notice that We the People are gathering, are watching, and we demand that you as our servants, our trustees, follow your Constitutional Oaths to the People of this State.
